

## BEFORE AND AFTER SCHOOL CARE

OLG will be making Before & After School Care (B.A.S.C.) to all registered families. This packet contains general information, rates and registration information concerning the program. We have received a great response to this offering and we are looking forward to the coming year. B.A.S.C. will be an in-house program under the leadership of Kathy Smock. She has coordinated the Y.M.C.A.'s "Y-Kids" program for years. We hope to have some of the teaching staff involved in this program also.

Because of the huge number of survey responses, it is necessary to set a deadline of August 1<sup>st</sup> to return your registration to assure your spot in the program. This will also allow us the time needed to complete our hiring process and room set-up. Both of those items are based purely on the total number of registrations.

B.A.S.C. will provide a daily snack, physical activity, study time, quiet reading time, creative time and games each day depending on the amount of time your student is there. Further details of the daily program will be sent out after registrations are received.

There will be special holiday and days off care available. This program is only available to BASC registered families. This program will start with the Labor Day holiday and a complete schedule will be distributed later this summer. It will include care during the Christmas and Easter breaks as well.

Additional information concerning drop-off and pick-up locations and check-out procedures along with other information will be sent after we receive your registration.
